(a)

Le terme "beurre" s'entend du beurre naturel, du beurre de lactosérum ou du beurre "recombiné" provenant exclusivement du lait, dont la teneur en matières grasses laitières est égale ou supérieure à 80 % mais n'excède pas 95 % en poids, la teneur maximale en matières solides non grasses du lait est de 2% en poids, et la teneur maximale en eau est de 16 % en poids.

(b)

L'expression " pâtes à tartiner laitières " s'entend des émulsions du type "eau dans l'huile" pouvant être tartinées qui contiennent comme seules matières grasses des matières grasses laitières et dont la teneur en matières grasses laitières est égale ou supérieure à 39 % mais inférieure à 80 % en poids.
